Port Triggers

This page allows configuration of dynamic triggers to specific devices on the LAN. This allows for special applications that require specific port numbers with bi-directional traffic to function properly. Applications such as video conferencing, voice, gaming, and some messaging program features may require these special settings.

| Trigger Range | | Target Range | | Protocol | Enable |
|---------------|----------|--------------|----------|----------|-------------------------------------|
| Start Port | End Port | Start Port | End Port | | |
| 1026 | 1026 | 1026 | 1026 | Both | <input checked="" type="checkbox"/> |
| 0 | 0 | 0 | 0 | Both | <input type="checkbox"/> |
| 0 | 0 | 0 | 0 | Both | <input type="checkbox"/> |
| 0 | 0 | 0 | 0 | Both | <input type="checkbox"/> |
| 0 | 0 | 0 | 0 | Both | <input type="checkbox"/> |
| 0 | 0 | 0 | 0 | Both | <input type="checkbox"/> |
| 0 | 0 | 0 | 0 | Both | <input type="checkbox"/> |
| 0 | 0 | 0 | 0 | Both | <input type="checkbox"/> |
| 0 | 0 | 0 | 0 | Both | <input type="checkbox"/> |
| 0 | 0 | 0 | 0 | Both | <input type="checkbox"/> |
| 0 | 0 | 0 | 0 | Both | <input type="checkbox"/> |

Apply

Put a tick on the Enable!

Click Apply!

Go to Advanced -> Port Triggers
Enter the ports that you want to triggers.
Make sure you put a tick on the enable column.
Click Apply.
Done!!!

****Please take note that once you enabled the policy, it will apply to all LAN and WLAN Networks.***
