

## Features and Benefits

### **Faster Wireless Connection**

The DI-524 provides up to 54Mbps<sup>1</sup> wireless connection with other 802.11g wireless clients. This capability allows users to participate in real-time activities online, such as video streaming, online gaming, and real-time audio. The performance of this 802.11g wireless router gives you the freedom of wireless networking at speeds 5x faster than 802.11b.

### **Advanced Firewall Features**

#### **Content Filtering**

The Web-based user interface displays a number of advanced network management features including:

#### **Filter Scheduling**

Easily applied content filtering based on MAC Address, IP Address, URL, and/or Domain Name.

#### **Network Address Translation**

These filters can be scheduled to be active on certain days or for a duration of hours or minutes.

#### **Secure Multiple/Concurrent Sessions**

NAT prevents outside intruders from gaining access to your private network.

The DI-524 can pass through VPN sessions. It supports multiple and concurrent IPsec and PPTP sessions, so users behind the DI-524 can securely access corporate networks.

### **Compatible with 802.11b Devices**

The DI-524 is still fully compatible with the IEEE 802.11b standard, so it can connect with existing 802.11b PCI, USB and Cardbus adapters.

### **User-friendly Setup Wizard**

Through its easy-to-use Web-based user interface, the DI-524 lets you control what information is accessible to those on the wireless network, whether from the Internet or from your company's server. Configure your router to your specific settings within minutes.

**DI-524**  
**802.11g/2.4GHz**  
**Wireless Router**

Other D-Link products that work with the DI-524:  
**DWL-2000AP**

**High-Speed 2.4GHz**  
**Wireless Access Point**

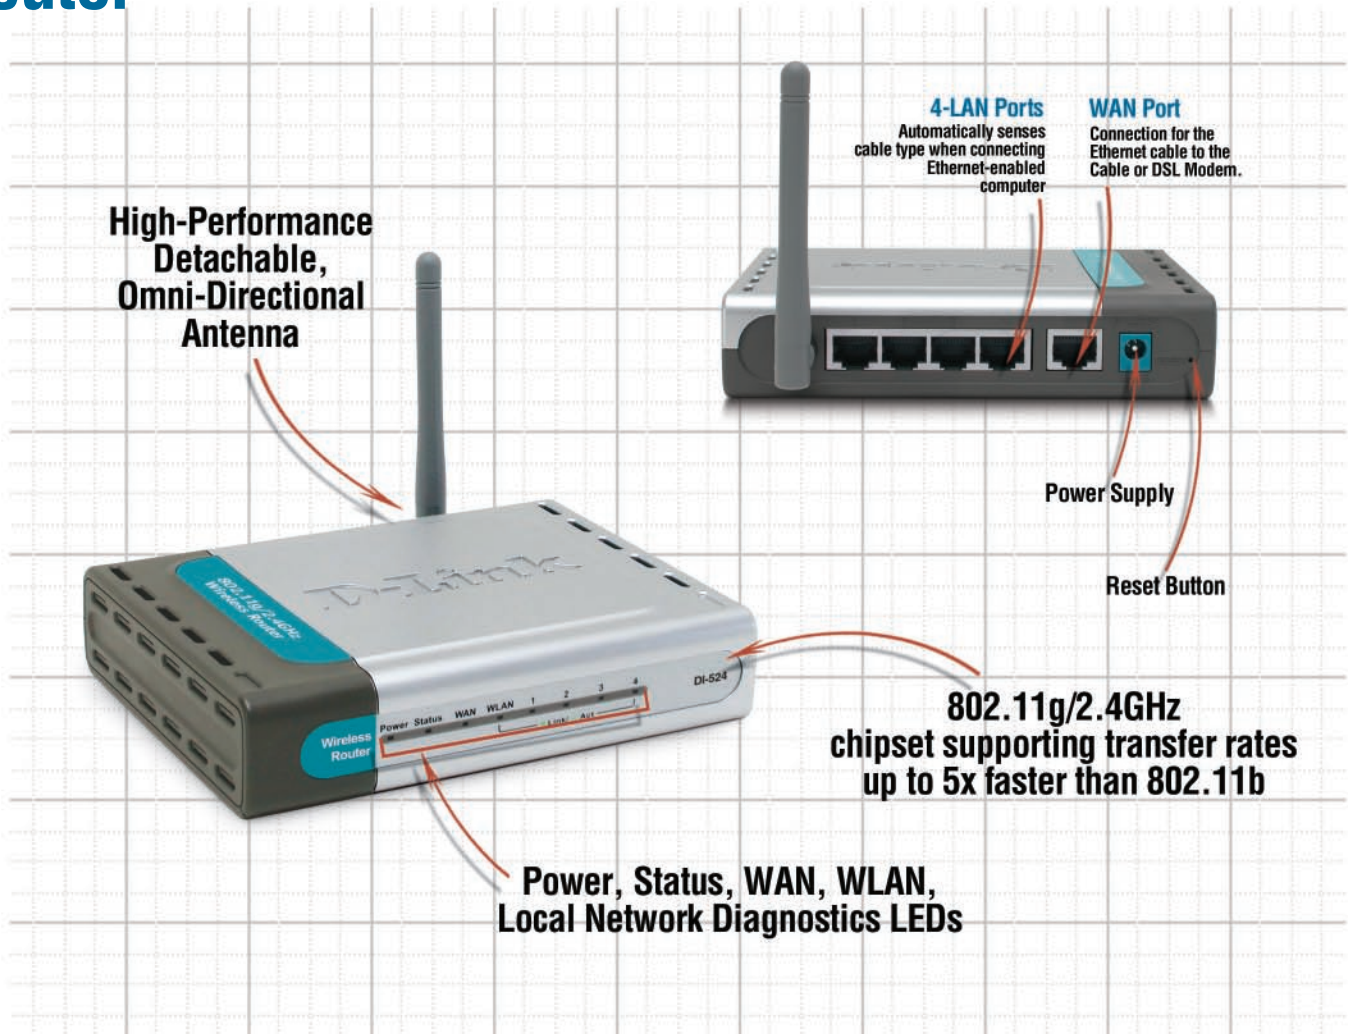

**DWL-G510**  
**802.11g/2.4GHz**  
**Wireless PCI Adapter**

**DWL-G630**  
**802.11g/2.4GHz**  
**Wireless Cardbus Adapter**

## 802.11g/2.4GHz Wireless Router

### Advanced Firewall Features

Feature	Available
NAT with VPN Passthrough (Network Address Translation)	✓
MAC Filtering	✓
IP Filtering	✓
URL Filtering	✓
Domain Blocking	✓
Scheduling	✓

<sup>1</sup> Maximum wireless signal rate based on IEEE Standard 802.11g specifications. Actual data throughput will vary. Network conditions and environmental factors, including volume of network traffic, building materials and construction, and network overhead lower actual data throughput rate.

### Product Information

Part No: DI-524  
 Description: 802.11g/2.4GHz  
 Wireless Router  
 UPC: 790069-264337  
 D-Link Systems, Inc.  
 TEL: (800) 326-1688
